I have not put Pavillion references into Endnote.

We have references in the Draft Report and in the Phase V interpretive report - those citation lists could be combined. Is there a purpose here?

Have you built, or are you building, a bibliography (ie, Endnotes) for Pavillion related literature? I was asked if we had any file of site related or applicable literature. I expect you have some literature review file/bibliography for the draft report and the Phase V brief. Was wondering what has been compiled in response to the comments and related review, and wanted to know what we have compiled to date.
